MONTE'S NEW SHOW FULL OF RIG SURPRISES

tle, western bad man, until the final drop of the curtain, with Izzy leading the chicks off the stage in a lock-step the new show put on last night at the Bijou theater kept the audience on the jump every minute. The western gun man insisted on shooting at someone. and of course izzy always happened to get in the way. The show was "Izzy, the Secretary," and although there wasn't much of a plot, Izzy was several times for their singing.

The single hit of the evening was rather impromptu but if Izzv is game Ain't Got Nobody Much," and when it finished, the audience encored it several times. On its final appearance it was Monte's cue to enter. He en-Monte joined them, and as the music was adaptable to the hula, Izzy gave a regular demonstration of the Hawaiian national dance, It brought down the house. Of course, gles introduced in the dance, but it tickled the audience.

The chorus appeared to good advantage in a collection of new songs and dances, and they ably backed Bob was unusually good. Honolulu is a difficult place to assume any such character, for the audiences are liable to be too critical, but Lou got away with the part last night. The musical program was filled with excellent numbers, and the show altogether is a happy musical burlesque.

FREIGHTER NEARLY LOST

The T. K. K. freighter Unkai Maru No. 2. Captain Satow, came in yesterday afternoon with most of her tophamper damaged. Captain Satow reported that in latitude 46:42 N., and longitude 157:23 W. he ran into a ter rific southerly part of a circular storm

with a cross sea. He said: "The weather beat up over out weather side so hard that several cabgret that I cannot offer you a cigar The waves washed into a spare room where I had a stock of excellent Manilas. They were all spoiled. But, please, have a cigarette. These were in my desk and are excellent.

"Lifeboats were stove in and much of our tophamper was carried by the board. There was a time when I saw little hope of coming out alive. But we managed to work our way out from the center of the storm and I found that the Unkai Maru held easily when broached. She lay at a great angle to the wind, but she went just so far and no farther.

"I note with interest that the center of circular storms seems to be at the worst on the dead line of 180 degrees longitude. There has been much o this storm center during the past year and transpacific captains should be especially careful. I am sending in a report of the prominent latitudes of the storm centers."-San Francisco Examiner, October 6.
